Response to Arguments

Applicant's arguments with respect to claims 8-9 have been considered but are moot in view the allowance of the independent claims.

Applicant's arguments filed September 18, 2006 have been fully considered and are persuasive. However, upon further consideration, a new ground(s) of rejection is made for claim 40.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 40 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. A program storage device readable by a machine for implementing a method is not directed to a practical application of the method because it is not readable by a computer (MPEP 2106.01).

Allowable Subject Matter

Claims 1, 3, 4, 6-17, 19-37 and 39 are allowed.
